Message from the Fire Chief

It is truly an honor to be serving as Chief of the Wheatland Fire Authority. The WFA, like most departments across the country, faces new challenges each day to provide efficient and effective service to our residents as budgets continue to tighten. We will remain focused on our mission and our core values. WFA is an "all hazards" response agency, this includes response to fires, floods, rescue situations, building collapse, water rescue, high and low angle rescue, hazardous materials mitigation, trench rescue, confined space rescue, and emergency medical response. Our personnel consist of highly trained, caring and compassionate professionals who place interests into our residents before their own. I am looking forward to serving as the Chief for many years to come and will continually evaluate our operations to ensure we consistently exceed the expectations of our community and residents whom we are proud to serve.
